

DOT OQ Pipeline Assessment Testing

ABC is now offering NCCER DOT OQ Pipeline Assessment Testing

<u>Pipeline</u>	<u>Assessment Overview</u>
<ul style="list-style-type: none"> • Abnormal Operating Conditions– Control Center • Abnormal Operating Conditions– Field • Gas Maintenance Tech • Gas Pipeline Operations • Field Operations Technician • Control Center Ops Technician • Mechanical Pipeline Technician • Electrical & Instrumentation Tech • Corrosion Prevention Field Tech– Installation • Corrosion Prevention Field Tech- Measurement • Corrosion Prevention Field Tech2 • Corrosion Prevention Field Tech3 • Custom Pipeline Maintenance Technician • NDT: Radiographic Film Interpretation of Pipeline Welds • Pipeline Maintenance Tech 	<p>NCCER has developed the Pipeline Training and Assessment Program in partnership with API. PTAP consists of pipeline curriculum and pipeline skill assessments to qualify pipeline personnel under the Department of Transportation's regulation for Pipeline Operator Qualification. The pipeline assessments are tied directly to NCCER's standardized pipeline curriculum and will determine qualification on selected covered tasks as identified by API and the industry.</p> <p>To determine which assessment applies to the work you are doing go to: http://www.nccer.org/documents/pipeline/CoveredTasks.pdf</p> <p style="text-align: center;"><i>Call the chapter office for additional information.</i></p>

	Member	Non Member
Abnormal Operating Conditions	\$ 175.00	\$ 225.00
Pipeline Assessments	\$ 175.00	\$ 225.00

ABC Members that report manhours each month and have available "training seats" have the option to apply their unused seats for use in assessment testing. One "seat" will cover one assessment.

Individuals are required to take Abnormal Operating Conditions-Field or Abnormal Operating Conditions– Control Center in addition to the assessment(s) specific to their covered task. All Assessment Tests are closed book and timed. Participants are permitted to use a non programmable, non printing calculator.
